

Hello friends, I am recommended candidate for Indian Air Force technical branch. When I joined this CS ACADEMY i was completely blank about the defense exams but the guidance for the SSB by Kandal sir, specially the psychological part and the interviews helped me to clear the SSB in my first attempt.

The GTO part is again v imp and with proper guidance of sir i was able to make it. I simply applied the basic ideas given by sir in my GTO.

Sir guided me so nicely..i got many friends , i think this was the best coaching of my life. I attended the classes at CS ACADEMY for 9 days ,because of less time availability n in this short time I got best training for lecturrete and the group planning.Lecturrete was taken by Chiranjiv Sir,and he used to record it,this way we can see how we speak in a group.Personal attention by Kandal Sir telling us all what is missing n wrong finally helped many like me to clear SSB.

I sincerely thank Kandal Sir whose able guidance was instrumental in my recomendation.

Divya Pandit
