

Sir,

The teaching at the institute was an eye opener for me, sir showed me the path which would lead to glory, I took time but finally the words of kaundal sir changed my life, not only it helped me in clearing my ssb but also taught me how to live a successful life and that's what makes a difference. The training is very well designed and it doesn't matter that what is your background where you come from here at cs institute you are taught to become an officer in your life. No thumb rules no mugging up, just simple fundas which develop a reasoning mind, which forces you to think over certain aspects of our lives and these thoughts force us to change. Above all I would say that if u want to be a winner for life come and take kaundal sir's blessings and use his magic in your life...thank you sir I took time but yes I did it

Paramveer Singh Rathore(sir I am the one who on my first day told you that I am a born warrior and got a scolding)
