

Firstly I'd say that the 14 days period at CS Institute is meant not only for SSB, but for our life and future.

For aspiring candidates I'd say that, don't just listen to the words of General Kandal, but see the bigger picture behind each word, and then associate it with yourself.

Everyone has different abilities for different aspects of life, General Kandal just tells, which abilities to exercise for being a leader.

His guidance made SSB so easy for me, that I was enjoying the tests and was sure about my selection.

On the day of reporting, after attendance, we were allotted 34 SSB board. That day I didn't prepare anything for screening. I just made friends, talked for hours, jokes, laughs, etc. And in Screening, out of 122, 40 candidates got screened in. The GD was healthy and I was appointed to give the common story.

Then from the very next day, the fun (tests) began. In TAT, I did all 12 stories, keeping every word of General Kandal in mind, then WAT was challenging, but I did all 60. Then SRT, so easy after attending Chiranjeev Sir's sessions.

Finally SD, in which I gave the honest opinions.

In GTO tests, which I enjoyed the most, I was at my best. GD topics were from current affairs (reason for corruption & reason for violence in youth). But I was highlighted in Lecturette, where everyone was speaking haphazardly, I gave the layout of my speech, and just fitted my words in that structure only, again Thanks to Chiranjeev Sir.

Your contribution in PGT and HGT desacks, how many times you will be called as a sub-ordinate in command Task. I was called 3 times out of 9.

Just keep the instructions of Kandal Sir and the GTO in mind and you are in.

My personal interview lasted for more than 1 hour. Again honest answers made my job because it gives a common personality to each assessor, psychologist, GTO and IO. And conference was just a formality & lasted hardly for 30 seconds. Just after conference, within 1 hour, results were declared, and I was one of the 7 candidates who got recommended.

Finally I would say that General Kandal gives a new path to lead life in a better way, I doesn't matter, whether you get recommended or not.

Thank You Sir.
