

Respected Sir,

I am very thank full to You & C. S. INSTITUTE OF DEFENCE & MANAGEMENT for all the learning that helped me to get selected in SSB. Before joining the institute I don't even know what type o a guy I am what are my capabilities, how can I connect with people, but after training I felt a great change in myself which will help me throughout my life. The idea of sir "TO BE FOCUS ON SITUATIONS AND NOT ON PEOPLE "has a great difference in myself.

All the sessions of this institute made me more confident to stand anywhere as a leader. And also made me confident, so that I can have my own idea of thinking, and given an idea of relating everything logically. This helped me a lot in my interview to be firm on my Idea.

Thanks & Regards
