

I would like to thank Respected Maj. Gen. Kandal sir for the exhaustive coverage of the all the GTO tasks and the Psychology tests. It's where I've learned how to put my best of my effort and the right approach one should have in the SSB. Before coming to "csacademy" I was unsure about the testing procedure and it was a mix of different thoughts. But while leaving csacademy, I was full of Rationalism and Right approach towards the life that has helped me to be the person I am. I have made my family and friends proud by clearing my SSB in the very first attempt and being a part of prestigious Officers Training Academy.

I would also like to thank Chiranjeev Sir for informative Brain Storming Sessions and providing excellent practice of Military Planning which is also very appreciable.

I wish you both the best of the health and best wishes for the friends who are going to appear for SSB.

Best Regards,

Ruchika Pandey
