

Respected Sir,

I am really thankful to CS Institute for guiding me towards achieving my goal of joining elite Indian Army. Credit goes to all the faculties of the institute. Its all because of their dedicated efforts and hard work towards each student of the institute that results in success of the students.

Training methodology here is such that it helps in developing excellent leadership skills so that one can lead in every front of life. GD and lecture classes really helped in building good communication skills. Outdoor tasks taught by General sir helped a lot in SSB.

Motivational and inspirational sessions by faculties helped in applying positive and rational approach to the problems. Mock interviews and feedbacks helped me a lot in SSB interview.

I wish that the institute will continue to give excellent results in the future also.

Regards
