

First of all my regards to Major General sir and Chiranjiv sir, I was recommended in IAFSB for July 2010 course FTS entry for flying.

The main experience that I would share from my opinion was that I didn't have any preconceived ideas for SSB but I had the knowledge for the purpose of the tasks. The idea of value of life and reminders told by Kandal sir if imbibed will always benefit not only for SSB but for whole life.

I was told the same tips after my recommendation as they were before because they'll help anyone throughout the career may it be in any stream.

So, I'll conclude by repeating sir's words everyone is normal and similar to you. So, If others can do it, you can do it.

Regards.
